Hi, Carl, Gail and Laurel -- I drafted up a response, based on the Mead and WY delegation responses.

If you could please let me know your changes or concurrences by this Friday, I can get the three letters printed out (one for each Member) and bring a folder with them in it down to your area to begin the concurrence/signature process.

Thanks!!

FYI – another congressional request, this time from SD, requesting an extended comment period and a rescheduled public hearing for WY regional haze.
